Hi Karen,

Since time is short on the I-70 East project in Denver, I thought it might help to have an email. During the Nov 17 conference call we had, there was outstanding input and information that needed to go in both directions. I believe EPA responded on the items on our to-do list but if there's anything outstanding on our side, please let me know.

Here is the status of topics that EPA is interested in. I got some information from EPA Region 8 about what they have vs. what we are still looking for, let me know if this matches your information:
